Nancy joined Clark and Associates in 2003 as our Office Manager. Prior to Clark and Associates she worked for a large payroll provider. During that time she managed the installation of new accounts, which required extensive customer service skills.

Nancy's duties with Clark and Associates include handling the accounting functions that are needed for the office. As office manager, Nancy performs a broad scope of tasks associated with running an office. She also assists with the trouble shooting of any computer events that occur.

In past years, Nancy has volunteered for the Susan G. Komen breast cancer foundation. She has participated by volunteering her time to hand out the race packets and keeping track of race participants. Nancy enjoys giving back to the community in this way and she takes great pleasure in helping a cause as important as this one.

Nancy has one adult daughter, who has a three year old child. Nancy enjoys spending time with her daughter, son-in-law, and granddaughter. They enjoy going camping, fishing, and hiking together.
